

September 2017

Fall is in the air! September brings many changes for people and their families. GWRRA members are no exception.

With the cooler weather on the horizon there are several things that come to mind. Beautiful color rides as the leaves start changing, cool evenings around a bonfire with family and friends and of course, turning the heat on the seat of the Goldwing.

Change is good but often times hard for some people. There will be changes coming in GWRRA next year. Details will be shared as they are received from the home office. If you have questions that you would like to ask please feel free to pass them on to us. Kevin and I will do our best to bring our chapter through these changes and make a great transition.

If you would like an awesome opportunity to get involved now and embrace the world of change please let us know. It may seem to be daunting or overwhelming to be an officer of a chapter but it is really is not. There is, of course, a learning curve but we like to keep it fun. As Kevin and I look forward to our last year as Chapter Directors, we would love to have more chapter members involved. The more the merrier, as we often say in our family! Please consider this opportunity.

Chapter N will be celebrating 25 years in January 2018, let's make the next 25 years great!

Regards,
Cindy Tucker

Back to the Basics

During the past three years I have overheard a number of people talking, at some time or another, about breakdowns they experienced while on the road. In many of these cases, the incidents, were resolved with a minimal amount of stress and anxiety on the part of the rider. What allowed those riders to stay calm and collected? The simple answer, Rescue Plus.

I personally used Rescue Plus three times last year, once on my trike, and twice for family cars. cars. This past July fate struck again. I experienced a ply separation on my front tire. Naturally, it happened out of town while I was leading a ride near La Crosse Wisconsin. What did I do? Of course, I called Rescue Plus. In less than one hour, they arrived, loaded my trike, and delivered me and my cycle to a Honda Dealer in La Crosse.

All at NO CHARGE, since I was able to take advantage of the **free** transport within 100 miles that applies in the US and Canada.

For those of you already covered or considering the coverage, remember that it applies not just to your bike but also to your family cars. As long as they are not commercial vehicles, they are covered and it's all good. Just a part of our benefits through GWRRA. So! Remember, when it's membership renewal time, opt. up for the extra coverage. "You never know when you might need it".
